

In regard to regional/national broadcasters. I am writing with comment on how a national Christian radio broadcast (K-Love) effects my community. This radio service is of large value to my family since we live in an area that is largely Mormon, and my family is not. This is the only source of Christian broadcasting that is available to us in this area. In addition, the moral values of this station, provide clearly superior family radio as compared to the local commercial radio stations which have little or no moral standards. Allowing local low power FM stations to take priority over regional or national broadcasters would eliminate the available choice of radio entertainment. Thank you.
